

Our Response to COVID for 21-22

PROVIDENCE CLASSICAL SCHOOL

Providence Classical School is looking forward to offering students a wonderful school year!

Classes will be in-person, extracurricular activities will continue, and parents are welcome back on campus to volunteer and attend events.

WHAT IS PCS DOING TO PROMOTE WELLNESS ON CAMPUS?

- Masks and hand sanitizer available on campus
- Space Technology certified air purifiers in each room that protect & purify the air & attack contaminants on all surfaces
- New fans in classrooms that kill 99.9% of viruses in the air & improve air circulation
- Weekly systematic COVID testing of all faculty & staff
- COVID rapid testing available for any student who exhibits symptoms or who has been in close contact
- Maximum exposure to fresh air and sunlight through outdoor eating, learning, and playing
- Masks will be provided for students who are exhibiting viral symptoms while they await pickup from school

WILL MASKS BE REQUIRED ON CAMPUS?

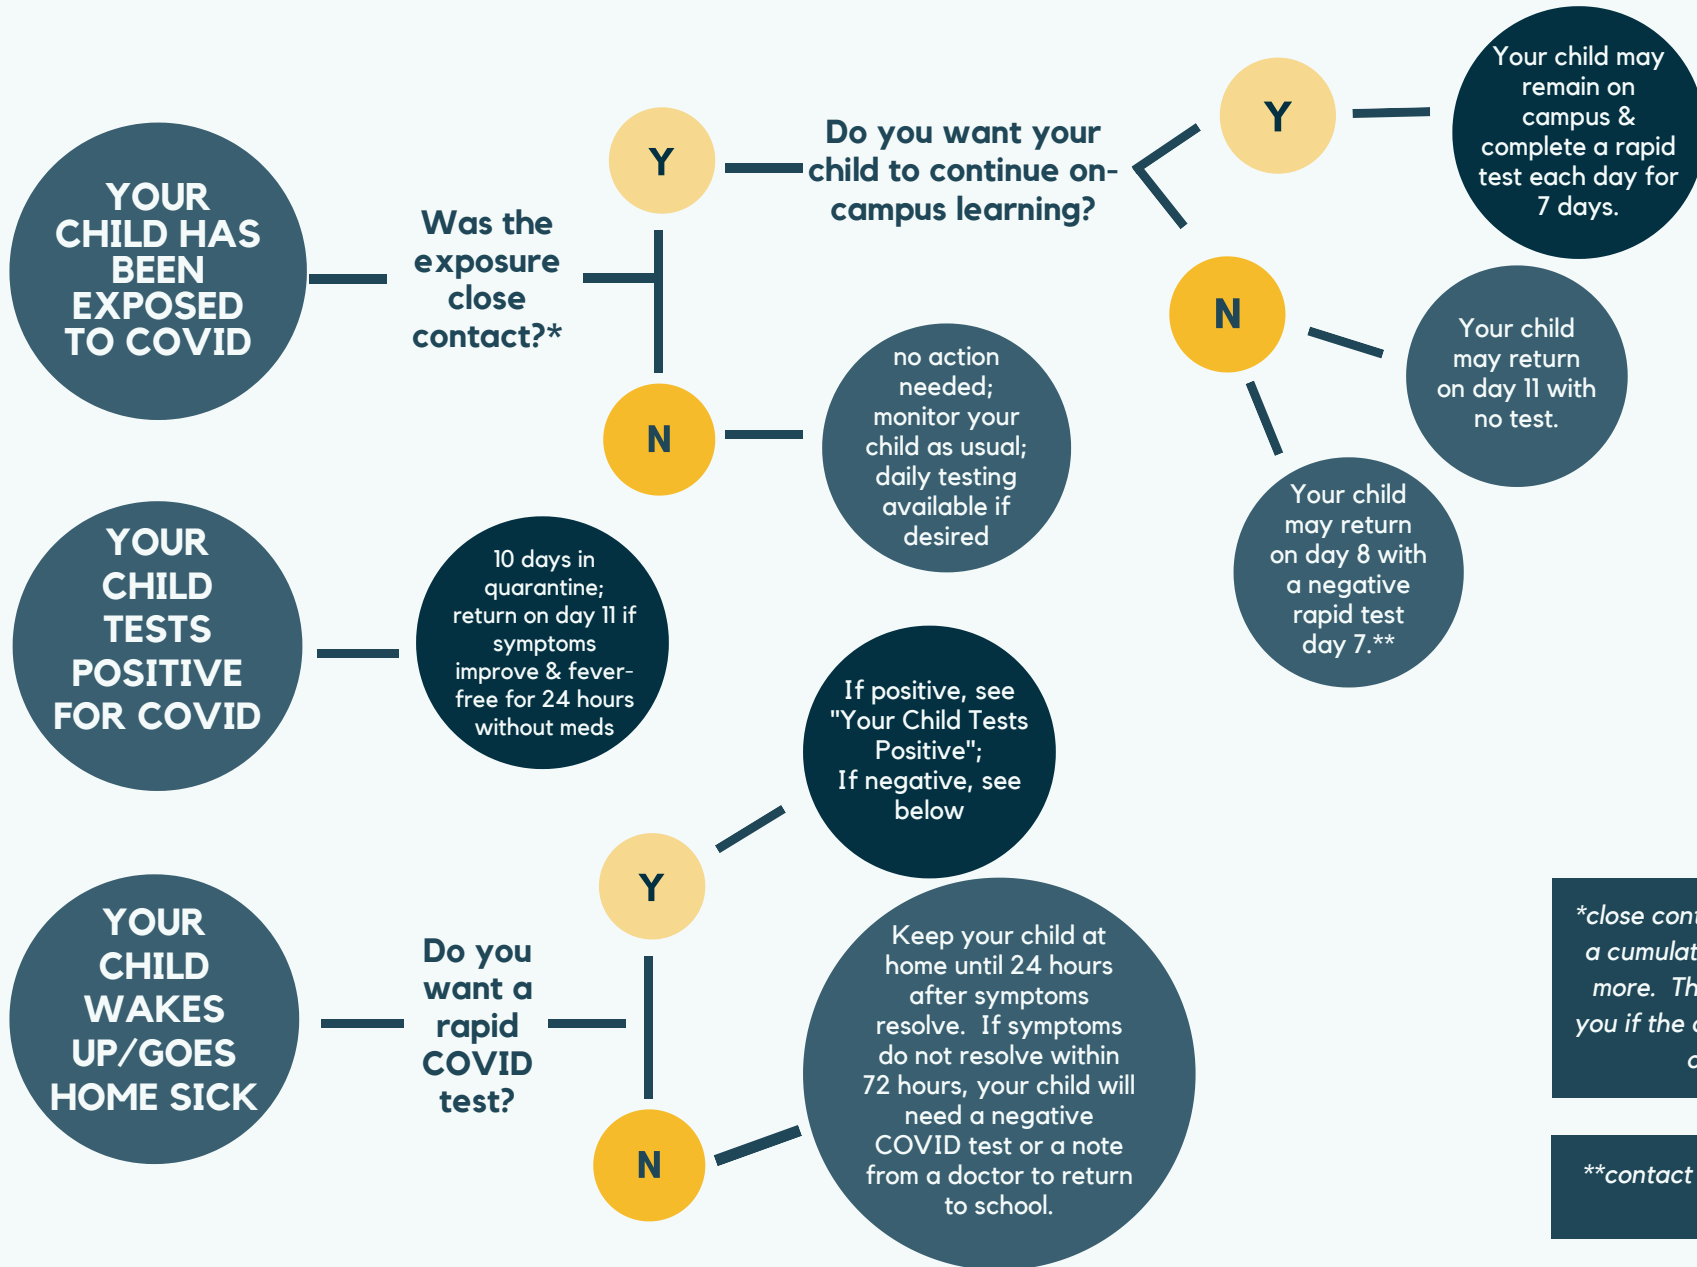

Providence welcomes usage of masks and personal protective equipment (PPE) by anyone who chooses to wear them. Masks are optional.

WILL PCS BE OFFERING SYNCHRONOUS LEARNING?

Providence will not be offering synchronous learning this year. If your child is out ill, he will receive make up work as usual upon return. If your child is in quarantine or COVID positive, because of the extended nature of this type of absence, he will be given work when he is ready (not too ill), & PCS will have a system of adult tutors in place to supplement learning, answer questions, & help guide your child through the lessons. While the tutor & the assigned work will help keep the student moving forward in the learning, this short-term situation is not intended to mimic the classroom.

Quarantine Process

*close contact is within 6 ft for a cumulative of 15 minutes or more. The school will notify you if the close contact occurs on campus.

**contact PCS if you prefer a PCR test
