

School Awards 2020-2021

Exceptional Diligence Award

The Exceptional Diligence Award recognizes a student who has demonstrated careful and thorough attention to both class work and homework. Teachers evaluate the amount of effort the student displays both in time and in relation to the student's natural abilities. This student's work is characterized by thoroughness, accuracy, and neatness. Often, the student goes beyond the call of duty to seek extra help if needed or to do further study in the subject. One student per grade level receives this award.

Congratulations to the 2020-2021 winners!
