

School Awards 2022-2023

Exceptional Diligence Award

The Exceptional Diligence Award recognizes a student in each grade who has demonstrated careful and thorough attention to both classwork and homework. Teachers evaluate the amount of effort the student displays both in time and in relation to the student's natural abilities. This student's work is characterized by thoroughness, accuracy, and neatness. Often, the student goes beyond the call of duty to seek extra help if needed or to do further study in the subject.

Congratulations to the 2022-2023 winners!
